

The People Speak

Power Of Bible

! Dear Editor: Since any nation can be destroyed in little or no time if it were the will of God, I believe that the United Nations leaders should realize the power of the Bible in making decisions in the world court of justice.

! The nations that control the hydrogen weapons are in reality the least powerful nations in the eyesight of God who does not like evil and warmongering.

! All nations should send only their wisest leaders to the UN be-

cause most material minded geniuses would be a total loss when dealing with wise men who have God power. — A Baha'i.
