

Fear For Life Of Former Councilman Thomas W. Fleming

CLEVELAND, Oct. 16—All Cleveland was greatly alarmed Saturday morning when the news spread that Attorney Thomas W. Fleming, former member of the City Council a number of years, was seriously ill at his home, 2342 East 40th street, having suffered a cerebral hemorrhage Thursday night and another Friday night.

His condition was described by his family physician as very critical. A wire was sent to his wife, the popular Mrs. Lethia Fleming, who is directing the activities of the National Republican committee among our group from the offices in Chicago and she came on the first train leaving Chicago and is now at his bedside. Worry over business reverses and the loss of considerable properties during the period of the depression has superinduced his illness.
