

Editor Completes Urban League Committee SEEKS JOBS FOR RACE IN NRA

NEW YORK, Sept. 28—Robert S. Abbott, editor of The Chicago Defender and chairman of the Committee of 100 for Negro Workers, sponsored by the National Urban league, announces that the committee has been completed.

The purpose of the organization of the Committee of 100 was to provide a representative group of Negroes from all sections of the country who would assume the responsibility of supporting the Race worker in his effort to secure a fair and equitable share of employment—municipal, state and federal—under the conditions created by the program of recovery.

In order to insure the sustained interest of the members of the committee, all those who were invited to become members were asked to subscribe \$5 for the purpose of aiding in the organization of the Negro Workers' Council which has been initiated by the department of Industrial Relations of the National Urban League.
