

Space Science Lecture Set For Baha'i Center

"Science in the Age of Space" will be the subject of a lecture by Dr. Dan Q. Posin 8 p.m., Saturday, at the Chicago Baha'i Center, 116 So. Michigan ave, Room 1108.

He will be introduced by Col. Salvatore A. Pelle, director of public information for the Baha'i Community of the United States.

Dr. Posin is a scientist, educator, and author. He is a feature headliner on Chicago's educational TV station WTTW.

A professor of physical science at De Paul University, Dr. Posin previously served on the faculties of the University of California, the University of Panama and the University of Montana.

The program is free to the public and there is no collection.
