Resume Work On Baha'i Tabernacle

World-wide interest is manifested in the announcement of the resumption of work on the Baha'i Universal House of Worship, which is being built on the shore of Lake Michigan, 17 miles north of Chicago's central business district.

The preparatory work for the exterior ornamentation of the gallery section is now under way at the Earley studios in Rosslyn, Va. Rivaling the Taj Mahal in its unique beauty, this material symbol of the brotherhood of mankind and the universality of religion, is scheduled for completion of its exterior ornamentation within the next seven years.
